WORK EXPERIENCE

Microsoft Corporation | Remote Software Engineer

January 2026 - May 2026

- Used Azure Resource Manager to provision resources for internal development, enabling feature implementation without SAW machines
- Expanded machine learning deployment features to include backend shadowing and A/B testing, improving deployment resiliency

DataAnnotation | Remote Software Engineering Specialist

January 2025 - Present

- Assess AI models used by industry leaders for accuracy and efficiency
- In scenarios where AI is incorrect, document explanations of errors and provide coding solutions in JavaScript, TypeScript, and Python
- Generate edge test cases to improve AI problem solving capabilities

Self-Employed Quantitative Software Engineer

August 2022 - January 2026

- Analyzed global markets and managed risk for financial opportunities
- Created algorithmic trading systems in C++ for use in Sierra Chart
- Automated trade tracking metrics and created dashboards through Apps Scripts on Google Sheets

Skillz, Inc. | San Francisco, CA Software Engineer

July 2017 - July 2022

- Service owner for games.skillz.com, the face of Skillz for prospective developers and players
- Implemented 90% of the features visible on games.skillz.com using Next.js with Typescript and Node.js
- Integrated internal and external REST APIs to show Skillz platform features available per game
- Proposed and integrated Cypress and Jest for feature testing, reducing deployment times by 75% and eliminating regressions
- Used Github Actions and Argo to deploy updates with 99% success rate
- Monitored Datadog logs and diagnostics, preventing site downtimes from lasting longer than 15 minutes
- Decreased chat loading times by over 90% for over 1 million users
- Worked with 5+ external developers to integrate their games with Skillz

EDUCATION

University of California, Berkeley

B.A. Computer Science

August 2013 - May 2017

CERTIFICATIONS

CompTIA Security+

February 2026

SKILLS

Languages

C#, TypeScript, HTML, CSS, SQL, Bash, Python, Ruby on Rails

Technologies

Azure Resource Manager, Dotnet, React, React Native, Next.js, Node.js, JSON, Git, Jest, Cypress, Webpack, Redux, NPM, Yarn, REST API, SEO, SonarQube, Babel, Android, Selenium, MySQL, PostgreSQL, AWS, Argo, Docker, Kubernetes, OAuth, Terraform

Tools

Azure Data Explorer, Azure DevOps, Github, Github Actions, Visual Studio Code, Lighthouse, Google Analytics, Datadog, Jenkins, Charles, Swagger, Postman, Jira, Copilot, Claude

Practices

Agile, Scrum, CI / CD, UI / UX, SDLC, On-Call, DRI, CIT, UAT, Quality Assurance, Integration Testing, Unit Testing, API Design, DevOps, A/B testing

Collaboration

Technical Design Documents, Code / Process Documentation, Code Reviewing, Pair Programming, Mentoring
